- 6. On successful upgrade, users may receive a message that a valid license could not be found. If this message appears, then open the **Connectlt Registration** utility and click the **Get License Info** button to get the most up to date registration information for your purchase.
- 7. If new utilities are available in your new version of Connectlt-MAS90/200, then open the Connectlt Registration utility and click the Create Menu button. Any new menu options will be available the next time you start QuoteWerks.

Note: these final steps only need to be performed once for each QuoteWerks installation on your server and/or remote users.
